

YASH BHATIA

Boston, MA | bhatia.yas@northeastern.edu | (857) 313 4049 | [linkedin.com/in/yash-bhatia-3a953a224](https://www.linkedin.com/in/yash-bhatia-3a953a224)

EDUCATION

Northeastern University, Boston, MA **May 2024**
Master of Science, Information Systems **GPA 3.52/4**
Relevant Coursework: Web Design/User Experience Engineering, Application Engineering & Development, Data Management and Database Design, Program Structures and Algorithms.

University of Mumbai, Mumbai, MH, India **June 2020**
Bachelor of Engineering, Electronics and Telecommunications **GPA 8.06/10**
Relevant Coursework: Applied Mathematics, Database Management System, Big Data Analytics.

TECHNICAL SKILLS

Programming languages: Java, Python, JavaScript, SQL, HTML, CSS, Node JS, Express JS, React JS, RESTful APIs

Database: Oracle, PL/SQL, MySQL, MongoDB, PostgreSQL

AWS Services: EC2, RDS, VPC, Lambda, Security Groups, Load Balancer, CloudWatch, DNS, Route53, IAM, SES, SNS

Tools and Technologies: Amazon Web Services (AWS), Docker, Jenkins, VS Code, Postman, GitHub, JIRA

WORK EXPERIENCE

Accenture Solutions Pvt Ltd *Application Development Associate* **Feb 2021 - Jul 2022**

- Performed data analysis, data extraction and delivered valuable insights using Business Intelligence tool **Power BI** to enhance decision-making across 6+ departments, improving business efficiency by **53%**.
- Optimized existing **SSIS** packages, mappings, and workflows in **Informatica** to load data from csv files into data warehouse, increasing build quality by **30%** in 7 weeks.
- Collaborated in **ETL** development tasks, shifting away from an obsolete system, decreased end-user waiting times by **40%** while integrating services like GitHub, **AWS**, and **CI/CD** pipeline into workflow design to align with data flows.
- Designed **UNIX** shell scripts for automation of ETL jobs operating on AutoSys scheduler, increasing efficiency by **44%**.
- Recorded all technical, implementations, and status updates within **JIRA** while working on **Agile** methodology.

Trivia Softwares *Python Developer Intern* **Jun 2018 - Jul 2018**

- Programmed **OpenCV** and **NumPy** data science libraries to devise data retrieval system.
- Utilized **Beautiful Soup** for web scrapping to extract data for building graphs, gaining **90%** accuracy for analysis.
- Analyzed the data with **SciPy** and **Pandas** and presented it using **Matplotlib**.

PROJECTS

Bookstore Management System | Oracle, PL/SQL, Tableau **Apr 2023**

- Developed a comprehensive system, handling customer, bookstore, and inventory details, and implemented 20+ **procedures, functions, and packages**, boosting functionality and performance of the database.
- Optimized **SQL** queries and indexing strategies, resulting in a **45%** reduction in query response time and improved overall system performance.
- Implemented robust validation rules and access controls, ensuring data integrity and security for a database with 10,000+ records.
- Created charts and graphs leveraging data visualization tool **Tableau** to present data patterns and making data analysis more accessible, also facilitating data-driven decision-making for management and marketing strategies.

Learning Management System | AWS, RDS, JavaScript, MySQL, RESTful API **Apr 2023**

- Developed a **cloud** native web application and implemented authenticated **RESTful** services utilizing **Bcrypt** hashing.
- Successfully established Continuous Integration (**CI**) using **GitHub** Actions for automated integration tests and code quality checks to ensure application reliability.
- Deployed the application on **AWS**, ensuring high availability and fault tolerance by implementing **AWS Auto Scaling** and **Load Balancing**, while integrating it with **Amazon RDS** for the database.
- Leveraged **Pulumi** for Infrastructure as Code (**IaC**) and managed **DNS**, **CloudWatch**, **VPCs**, **Route53** hosted zones and health Checks.

Airline E-commerce | Java Spring Boot, MySQL, AngularJS, Thymeleaf **Dec 2022**

- Developed a web application using **Spring Boot**, **Spring data JPA** and **MySQL** where users can login and book a flight.
- Created an Integration layer **RESTful API** for flight check-in microservice to check in passengers with reservations.
- Designed front end templates using **Thymeleaf** and styled them using **Bootstrap** and **CSS**.
