

Certification of Program Completion

Last updated: 01/2024

This form certifies the student's anticipated date of completion of a program of study. The student completes Part I, then Part II and Part III are completed by the academic department.

If this request is approved, OGS will adjust the end date of the student's program in SEVIS as listed on section II of this form.

When do I need to use this form?

Use this form if you plan to request a Post-OPT Recommendation I-20 from OGS, and then ultimately submit an OPT application to USCIS.

How do I submit this request?

After getting Part II and III completed by the academic department, students need to submit the request via the appropriate e-form.

Navigate to the OGS Post-OPT Central within your myOGS account. You will need to complete a Post-Completion OPT Quiz and then will be able to request a new I-20 with the OPT recommendation.
