Attn: Hiring Manager

I am writing to express my strong interest in the Data Analytics Co-op position at Johnson & Johnson. With a strong academic background and hands-on experience in Data Analysis, I believe I am well-suited for this role. As a Master of Science in Information Systems student at Northeastern University, I have honed my technical skills in database design, object-oriented programming, data management and visualization.

During my time at Accenture, I had the opportunity to work on data integration, data extraction, cloud concepts, and application deployment in an agile environment. My tenure at Trivia Softwares as a Python Developer Intern exposed me to machine learning and data science concepts. These experiences taught me the importance of handling data with efficiency and collaboration by working in a team, skills that align with the responsibilities at Johnson & Johnson. In addition to my technical skills, I am a strong communicator and have a track record of academic excellence. I am eager to work on challenging projects, collaborate with cross-functional teams, and continue to expand my knowledge in data analytics domain.

I am drawn to Johnson & Johnson because of its commitment to professional development and the opportunity to work on impactful projects make this co-op program an ideal fit for my career goals. I'm passionate about using technology to solve real-world problems and I'm excited to work with like-minded professionals and contribute to the goals of team at Johnson & Johnson.

I have attached my resume, which further details my academic background and professional experience. I look forward to speaking with you in further detail about the co-op position and opportunity with Johnson & Johnson.

Sincerely,
Yash Bhatia
